GREENLEE OFFERS A NEW 12-TON CRIMPING TOOL
Two-speed ram for faster, safer and easier crimps

ROCKFORD, Ill. — Greenlee now offers the HKL 1230, a 12-ton crimping tool with a two-speed hydraulic pump and ram perfect for electrical, construction and utility applications.

The ram on the HKL 1230 advances rapidly until it contacts the connector before shifting to a lower speed to complete the crimp. Pumping the handles until the relief valve pops open indicates the crimp is complete. To retract the ram, simply twist and close the movable handle.

The HKL 1230 comes with a “C” shaped head that has a wide 1.2” opening that makes it easy to place the tool onto and remove it from the connector. It uses an all industry “U” style or shell-type dies designed for 12-ton crimping tools. The head rotates 108 degrees to get into tight places. The HKL 1230 is made with strong, lightweight fiberglass handles.

For more information on the HKL 1230, a 12-ton crimping tool and other products from Greenlee, a Textron company, contact Greenlee, 4455 Boeing Drive, Rockford, Illinois 61109-2988. Phone (815) 397-7070. Fax (815) 397-1865 or visit the website at www.greenlee.com.
